7 May 2019

Dear Sir/Madam,

Consultation on Revised Statement of Community Involvement

We are writing to you because we believe you have an interest in the Surrey Minerals and Waste Plans or in the way we currently consult on planning applications that are submitted to us for decision.

The current Statement of Community Involvement was adopted by the authority in May 2015. We have prepared a revised Statement of Community Involvement 2019. We are therefore inviting your comments on the revised Statement of Community Involvement from **7 May 2019 and 18 June 2019**.

If you wish to submit a comment on behalf of yourself, or those of someone you represent, please send your completed response form (available on the website below) to mdf@surreycc.gov.uk or by post addressed to: **Minerals and Waste Planning Policy Team, Surrey County Council, Room 390, County Hall, Penrhyn Road, Kingston upon Thames, KT1 2DN**

To view our Statement of Community Involvement and for more information, please visit the Surrey Statement of Community Involvement Consultation 2019 webpage <https://www.surreycc.gov.uk/land-planning-and-development/minerals-and-waste/statement-of-community-involvement-consultation-2019>

This consultation enables you to tell us your views on how we should be consulting and involving organisation and individuals in preparing plans and when considering planning applications relating to minerals and waste development as well as the county's own development proposals.

If you require any further information or an alternative format of the document please contact the Technical Support Team at mdf@surreycc.gov.uk or on 020 8541 9897.

Yours Faithfully,

Paul Sanderson

Minerals and Waste Policy Team Manager

Surrey County Council
